CAREER OBJECTIVE

Aspiring Software Engineer with strong fundamentals in programming, web technologies, and databases. Seeking an entry-level role to build scalable software solutions and grow professionally in the IT industry.

EDUCATION

B.Tech – Computer Science Engineering (CSE)
Trinity College of Engineering and Technology, Peddapalli
Expected Graduation: 2027 | CGPA: 8.15

TECHNICAL SKILLS

Programming: C, C++, Java
Web: HTML5, CSS3, JavaScript
Database: MySQL
Tools: VS Code, Git, GitHub
Operating Systems: Windows, Linux

PROJECTS

- A responsive Amazon Website Clone built using HTML and CSS. This project recreates the basic layout and design of Amazon's homepage, providing hands-on experience with modern web development concepts and responsive user interface design.
- A responsive portfolio website created for **EditKaro.in**, a social media marketing and video editing agency.
- An interactive Recipe Card web application built using HTML, CSS, and JavaScript.
- A simple and interactive Tic-Tac-Toe game built using HTML, CSS, and JavaScript. This project allows two players to play the classic game in a responsive and user-friendly interface.

CERTIFICATIONS

- Convoke 4.0 AI/ML Hackathon – IIT Consortium | 2026.
- Getting Started with Cybersecurity – IBM SkillsBuild | Jan 2026.
- UNNOVATIONS '25 Hackathon – XIM University | Oct 2025.
- Entrepreneurship Awareness Programme (EAP) – Central Institute of Tool Design (CITD) | Feb 2026.
- EnCode 2026: Code To Innovate of Udgam 2026 – Indian Institute of Technology(IIT), Guwahati.

SOFT SKILLS

- Strong communication & teamwork
- Problem-solving mindset
- Quick learner
- Active participation in hackathons and technical events
